Professional Experience

UX Designer @ TIPS Salud

Dec 2019-Nov 2020 // Córdoba, Argentina

- Designed and prototyped digital interfaces for administrative systems for the health industry.
- Designed and maintained a collection of design system components to improve the speed in prototyping.
- Researched and did user testing, planned and implemented design sprints for the development of the aforementioned interfaces.
- Communicated and collaborated with multi-disciplinary teams of developers, designers, testers, and expert users on a daily basis.

Contact: Emilia Espíndola, Head of Design (+54 9 351 7393193).

Web Designer @ 萤客 InCube

Dec 2016-Feb 2017 // Xiamen, China

- Designed and developed visual identities and websites through WordPress for foreign clients and for the studio at hand.
- Prepared a stationery design proposal for the government of Singapore.

Computing Teacher @ Arroba

Aug 2013-Dec 2014 // Río Grande, Argentina

- Taught classes on web design, graphic design tools, Microsoft Word and Excel.

Contact: María Pia Cazenave, Headmaster (+54 2964 420183).

Designer @ Tierra del Fuego Energía y Química (TEQSA)

Nov 2012-May 2013 // Río Grande, Argentina

- Designed and developed the company's website, as well as a variety of graphic pieces for internal communication.
- Performed interpretation and translation tasks.

Contact: Tong Xi (Sissy), Operations Coordinator (tongxi2@hotmail.com)

Head of Design @ Dome Argentina

Aug 2009-Jul 2010 // Córdoba, Argentina

- Designed and prepared self-adhesive sheets for printing of a wide variety of clients in the automotive area.
- Took charge of the entire production process of self-adhesive labels covered with a resin coating.

Contact: Germán Gigy, CEO (+54 9 351 5649589)

Graphic Designer @ Electrónica Virtual

Sep 2006-Mar 2007 // Córdoba, Argentina

- Designed a variety of graphic pieces, including isologotypes, business cards, budget sheets, warranty certificates, posters, flyers, digital publications for the promotion and sale of electronic goods.

Freelance Web Developer/Designer

2005-Present

- Designed a wide variety of graphic pieces for different clients: isologotypes, business cards, invitation cards, headed notepapers, graphic advertisements, 3D models and animations, and illustrations.
- Developed websites for projects of different sizes. They were mainly achieved by making use of WordPress as my platform and developing around it to suit the needs of the clients and the projects, using HTML, CSS, JavaScript, React.js and PHP to create custom themes, custom plugins and even several custom blocks for the new "Gutenberg" editor.
